BIOMETRIKA

A JOURNAL FOR THE STATISTICAL STUDY OF BIOLOGICAL PROBLEMS

FOUNDED BY

W. F. R. WELDON, FRANCIS GALTON AND KARL PEARSON

EDITED BY

KARL PEARSON

VOLUME XI

NOVEMBER 1915 TO MAY 1917

Reproduced and printed photolitho offset for
WM. DAWSON & SONS LTD
102 WIGMORE STREET
LONDON W.1
1955
With permission of the Biometrika Trust

UNIVERSITY OF WINDSOR LIBRARY

Reproduced and printed photolitho offset for
WM. DAWSON & SONS LTD
102 WIGMORE STREET
LONDON W.1
195
With permission of the Biometrika Trust

MADE AND PRINTED BY D. R. HILLMAN & SONS LTD., FROME

CONTENTS OF VOLUME XI.

Memoirs.

		PAGE
I.	On the Association of Temperature, Pulse and Respiration with Physique and Intelligence in Criminals. By MADELINE H. WHITING	1
II.	Variation and Correlation of the Number of Umbel Rays of some Umbelliferae. By C. COOL and A. N. KOOPMANS	38
III.	On the Partial Correlation-Ratio. Part II. Numerical. By L. ISSERLIS	50
IV.	Correlation of Anthropometrical Measurements in Cairo-born Natives. By MYER M. ORENSTEEN	67
V.	A Study of the Crania of the Moriori or Aborigines of the Chatham Islands, now in the Museum of the Royal College of Surgeons. By EVELINE Y. THOMSON	82
VI.	On the General Theory of Multiple Contingency with Special Reference to Partial Contingency. By KARL PEARSON	145
VII.	On Criteria for the Existence of Differential Deathrates. By KARL PEARSON and J. F. TOCHER	159
VIII.	On certain Probable Errors and Correlation Coefficients of Multiple Frequency Distributions with Skew Regression. By L. ISSERLIS	185
IX.	On the Correlation between the "corrected" Cancer and Diabetes Deathrates. By C. A. CLAREMONT	191
X.	A Contribution to the Problem of Homotyposis. By J. ARTHUR HARRIS	201
XI.	On the Probable Error of a Coefficient of Contingency without Approximation. By ANDREW W. YOUNG and KARL PEARSON	215
XII.	On some Novel Properties of Partial and Multiple Correlation Coefficients in a Universe of Manifold Characteristics. By KARL PEARSON	231

131948

PAGE

XIII. On the Application of "Goodness of Fit" Tables to test Regression Curves and Theoretical Curves used to describe Observational or Experimental Data. By KARL PEARSON 239

XIV. On the "Best" Values of the Constants in Frequency Distributions. By KIRSTINE SMITH 262

XV. W. R. MACDONELL. Born October 16, 1852. Died May 15, 1916. Obituary Notice 281

XVI. Further Supplementary Tables for Determining High Correlations from Tetrachoric Groupings. By ALICE LEE 284

XVII. On the Probable Error of Biserial η. By KARL PEARSON . . 292

XVIII. A Preliminary Report on some Breeding Experiments with Foxgloves. By ERNEST WARREN 303

XIX. On the Distribution of the Correlation Coefficient in Small Samples. Appendix II to the Papers of "Student" and R. A. Fisher. A Cooperative Study. By H. E. SOPER, A. W. YOUNG, B. M. CAVE, A. LEE and KARL PEARSON 328

Miscellanea.

(i) Note on the Probable Error of the Coefficient of Correlation in the Variate Difference Correlation Method. By A. RITCHIE-SCOTT . . 136

(ii) On Certain Types of Compound Frequency Distributions in which the Components can be individually described by Binomial Series. By KARL PEARSON 139

(iii) Note on the Standard Deviations of Samples of Two or Three. By ANDREW W. YOUNG 277

(iv) Tables for estimating the Probability that the Mean of a unique Sample of Observations lies between $-\infty$ and any given Distance of the Mean of the Population from which the Sample is drawn. By "STUDENT" 414

(v) On the Representation of Statistical Data. By L. ISSERLIS . . . 418

(vi) Relation of the Mode, Median and Mean in Frequency Curves. By ARTHUR T. DOODSON 425

(vii) The Probable Error of a Mendelian Class Frequency. By KARL PEARSON 429

Appendixes to Volume XI.

I. W. F. R. WELDON'S Mice Breeding Experiments, Records of Matings. Prepared for Press by F. J. W. and K. P. Separately paged 1 to 60

II. Moriori Crania. Six Type Contours on tissue in pocket.

Plates.

Plate I.	Special Fasciations of *Pastinaca sativa*
Plate II.	Moriori Crania. Typical Male Skull. No. 765^{45}. *N. facialis*
Plate III.	Moriori Crania. Typical Male Skull. No. 765^{45}. *N. lateralis*
Plate IV.	Moriori Crania. Typical Male Skull. No. 765^{45}. *N. occipitalis*
Plate V.	Moriori Crania. Typical Male Skull. No. 765^{10}. *N. lateralis*
Plate VI.	Moriori Crania. Typical Male Skull. No. 765^{10}. *N. occipitalis*
Plate VII.	Moriori Crania. Typical Male Skull. No. 765^{25}. *N. lateralis*
Plate VIII.	Moriori Crania. Typical Male Skull. No. 765^{25}. *N. basalis*
Plate IX.	Moriori Crania. Typical Female Skull. No. 765. *N. lateralis*
Plate X.	Moriori Crania. Typical Female Skull. No. 765^{32}. *N. lateralis*
Plate XI.	Moriori Crania. Typical Female Skull. No. 763. *N. verticalis*
Plate XII.	Moriori Crania. Typical Female Skull. No. 763. *N. basalis*
Plate XIII.	Moriori Crania. Male Skull. No. 765^{5}. Marked asymmetry of foramen magnum. *N. occipitalis*
Plate XIV.	Moriori Crania. Male Skull. No. 765^{5}. *N. lateralis*
Plate XV.	Moriori Crania. Male Skull. No. 762. Ossicle of coronal suture; occipital, bathrocephalic in character. *N. lateralis*
Plate XVI.	Moriori Crania. Male Skull. No. 762. Ossicles of the lambdoid suture. *N. occipitalis*
Plate XVII.	Moriori Crania. Male Skull. No. 765^{27}, with epipteric. *N. lateralis*
Plate XVIII.	Moriori Crania. Male Skull. No. 765^{27}. Massive glabella. *N. facialis*

Plate XIX. Moriori Crania. Skull No. 765[17], with marked bilateral paraoccipital processes articulating with atlas

Plate XX. Moriori Crania. Male Skull. No. 765[2], illustrating fracture of left ramus of mandible. *N. lateralis*, R. side with sound ramus

Plate XXI. Moriori Crania. Male Skull. No. 765[2], illustrating fracture of left ramus of mandible. *N. facialis*, showing asymmetry produced by injury

Plate XXII. Moriori Crania. Male Skull. No. 765[2], illustrating fracture of left ramus of mandible. *N. lateralis*, L. side with healed fracture and dwarfing of ramus and perigonal region

Plate XXIII. W. R. Macdonell, 1852–1916, from a photograph

Plate XXIV. Correlation in Small Samples. Photograph of Model A, $\rho = 0{\cdot}6$, $n = 2$ to 25

Plate XXV. Correlation in Small Samples. Photograph of Model B, $\rho = 0{\cdot}8$, $n = 2$ to 25

Plate XXVI. Correlation in Small Samples. Photograph of two aspects of Model C, $\rho = 0{\cdot}0$ to $\rho = 0{\cdot}9$, $n = 3$

Plate XXVII. Correlation in Small Samples. Photograph of Model D, $\rho = 0{\cdot}0$ to $\rho = 0{\cdot}9$, $n = 4$

Plate XXVIII. Correlation in Small Samples. Photographs of Model E ($\rho = 0{\cdot}0$ to $\rho = 0{\cdot}9$, $n = 25$), and Model F ($\rho = 0{\cdot}0$ to $\rho = 0{\cdot}9$, $n = 50$)

Extra Plate (double plate). Plate I of Appendix of W. F. R. Weldon's Mice Breeding Experiments. Photographs of Mice Skins to illustrate amount of Piebaldism.

Some coloured plates referred to in text have been reproduced in black.
